

F3 Li-ion Pallet Truck 1.5T

- A tough truck for transportation in logistics centers
- Strong structure and Li-ion heart
- Upgraded tiller head for ergonomics
- Flip cover for battery safety assurance
- Unique Platform F design reducing costs throughout the distribution cycle

F3 - A tough truck for transportation in logistics centers

Strong structure and Li-ion heart

F3 continues the advantage of EPL153(1), a simple and strong truck frame and a plug&play Li-ion battery. These deliver tough performance when transporting goods in logistics centers based on different work shift needs.

Upgraded tiller head for ergonomics

F3 adopts a new tiller head for an user to operate the truck more easily using the palm of his hand, instead of controlling the knob with thumbs. The pinch force exerted on a control knob during operations can be minimized so that excessive physical stress and strain on the hands are reduced.

Flip cover for battery safety assurance

Its flip cover design protects the battery from water ingress, which ensures operation safety .

Why F Series?

Platform-based design to maximize competitive advantage in the market

F series features the platform F, which simplifies the configuration of the truck and allows buyers to choose from 4 different chassis by application. The product design provides value and creates a flexible product strategy by introducing new equipment that meets various market requirements.

Cost-saving operations throughout the distribution cycle

4 units per box as standard wholesale supply reduces overall spending through the entire distribution process. F3 accommodates **176** units in a 40'shipping container compared to 108 units of EPL153(1), that can reach as high as **30-40%** of ocean freight charges reduction.

Electric Pallet Truck 1.5T F3

| Distinguishing mark | 1.1 | Manufacturer | | | EP |
|---------------------|--------|---|-------|-------|-----------------|
| | 1.2 | Model designation | | | F3 |
| | 1.3 | Drive | | | Electric |
| | 1.4 | Operator type | | | Pedestrain |
| | 1.5 | Load capacity | Q | kg | 1500 |
| | 1.6 | Load center distance | с | mm | 600 |
| | 1.8 | Load distance, centre of drive axle to fork | x | mm | 950 |
